

Please save Air1!! It brings such positivity to my community. I live in Portland, Oregon. Every rock-type station here is so foul with language and subject matter. The deejays brag about how much drinking and drugs they do and how many sexual partners they can accommodate at a time. They pontificate about vomiting and defecating. They say horrible things about anyone not "normal." I could go on and on. Air1 is the ONLY station my friends and I listen to because it's family-friendly and promotes positivity, morality, forgiveness, and love.
